

Maintenance Services *at a glance*

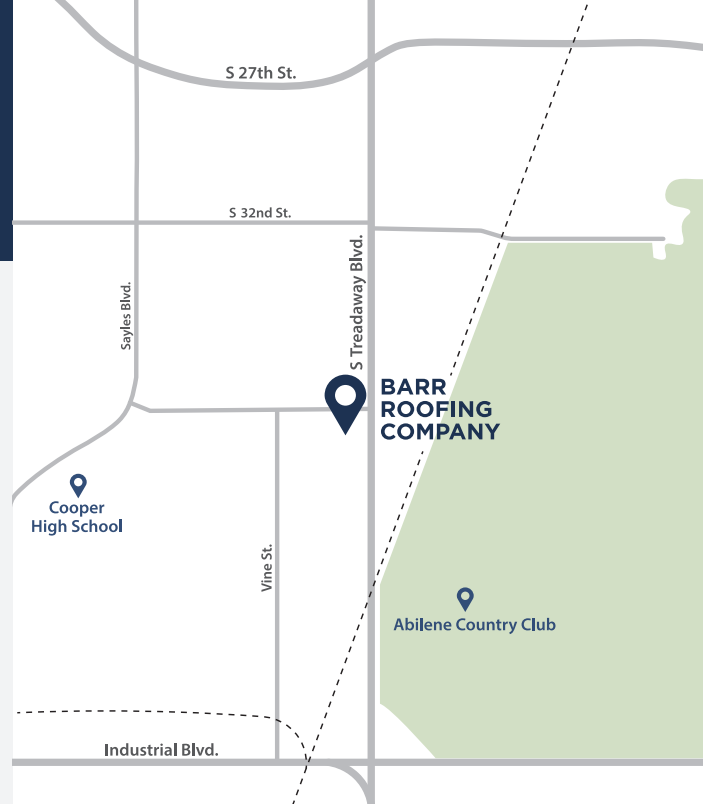

When you opt into a routine maintenance agreement for your roof, our experienced roofers can prevent leaks or discover them early. This can help you avoid costly property damage and possible profit losses resulting from business disruptions.

As part of the program, we provide a two-man service crew with options for half-day and full-day plans to fit your scheduling needs. Our systematic inspection and maintenance will protect your roofing investment, and when timely repair is needed, you can count on us.

Coverage includes:

- Visual inspection of roof (*photos provided*)
- Drain cleaning
- Gutter and downspout cleaning
- Debris removal for all roofs
- Preventive maintenance plan
- Budget assistance
- Online customer portal
- Written report of overall roof condition and any additional work needed

Infrared inspection is available at an additional charge.
